

The Future of Urban Mobility: Co-Location Centre Central Europe on the Move Towards Zero Emission

Date: Monday, 29th January 2018

Time: 10.00 – 18.00

Venue: Austrian Research Promotion Agency (FFG), Sensengasse 1, 1090 Vienna, Austria,
<https://www.ffg.at/en/content/contact-and-address>

Invitation

The European Sustainable Energy Innovation Alliance would like to invite you to the launch of the **Central European Co-Location Centre for Urban Mobility** in view of the upcoming European Institute of Innovation and Technology (EIT) call for Knowledge and Innovation Community on Urban Mobility (KIC-UM).

Aim:

To build a Central European Co-Location Centre which will address society's grand challenges regarding the future of mobility to serve efficiently the increasing number of citizens living in urban areas and sharing the same infrastructures to commute and travel. In future urban mobility will need to be fast, cheap, comfortable, inclusive, sustainable and fun.

Programme:

To support the above, the morning session of the event will present the **Central European Co-Location Centre for Urban Mobility**. The afternoon sessions will focus on the actual conceptualization of the **Future of Urban Mobility: Citizens on the Move Towards Zero Emission** as result of moderated discussions among participants.

The draft programme is available in annex of this invitation.

To optimize the discussion flow, participants are asked, ahead of the event, to fill in the files available at <https://drive.google.com/open?id=1Qu-HEvQU0g08TdzN1g1Y8i1wtPexifzs> by 20 January 2018:

1. List of ongoing and planned projects in the field of urban mobility
2. Matrix of expertise
3. Vision of your organisation for the *Future of Urban Mobility*

Registration: Please register by 20 January 2018 at <https://goo.gl/forms/WpzRjDQFuCIeEU5t1>.
